

CERTIFICATE OF REGISTRATION

Information Security Management System
 ISO/IEC 27001:2013

Appspace, Inc.

A-LIGN Compliance and Security, Inc. certifies that the organization operates an Information Security Management System that conforms to the requirements of ISO/IEC 27001:2013. The scope and boundaries of the ISMS is as follows:

The Appspace platform serves as a workplace experience platform for Appspace’s customers. Customers securely author and manage communications and content within the platform, which is then distributed to devices and displays and made available via the content portal.

Appspace’s design allows for this to occur without any access to the customer’s internal environment. Devices and endpoints reach out to the Appspace Cloud to pull down content, eliminating the need for opening ports on the customer’s firewall. This modern platform provides Appspace’s customers a number of different communication channels and tools to help them manage their communications and content. A summary of Appspace’s services include:

- Appspace Cloud
- Workplace Displays
- Enterprise Messaging
- Native Apps
- Appspace Intranet
- App Integrations
- Security and Deployment
- Support

The ISMS supports the workplace experience platform. The functional areas in scope support software development, quality assurance, production systems support, and security support.

The statement of applicability includes control objectives from the ISO/IEC 27017:2015 framework.

Certificate	ISMS-AP-103121	Original Certification Date	October 31, 2021
Version	1.2	Expiry Date	October 31, 2024
